

RIFAT BIN SIRAJ

Senior Full Stack Engineer | Software Engineer | AI Platform Builder | 5+ Years Experience

Dhaka, Bangladesh · +880 1761 233953 · rifatrabbi024@gmail.com · linkedin.com/in/rifatbinsiraj · github.com/Rifat024 · drutoai.com

PROFESSIONAL SUMMARY

Full Stack Software Engineer with 5+ years of experience building and scaling production-grade web apps, cloud-native serverless systems, and AI-powered platforms. Strong across the stack — React.js front-ends, Node.js / NestJS / Express.js and Java / Spring Boot back-ends, PostgreSQL / MongoDB, and AWS. Founder and lead engineer of DrutoAI, a live pay-as-you-go AI chat platform integrating Claude, GPT, and Gemini. Proven impact: 50% faster APIs, 60% fewer production bugs, 95% test coverage, and 5+ products shipped in 12 months.

TECHNICAL SKILLS

Languages: JavaScript, TypeScript, Java, SQL, Bash / Shell Scripting

Frontend: React.js, Vite, Material UI, Tailwind CSS, Redux Toolkit, HTML5, CSS3, Responsive UI, REST & GraphQL Integration

Backend: Node.js, NestJS, Express.js, Fastify, Java, Spring Boot, Spring Data JPA / Hibernate, Spring Security, RESTful APIs, GraphQL, Microservices, Serverless, JWT & Cognito Auth, Swagger / OpenAPI

Databases & Search: PostgreSQL, MongoDB, MySQL, DynamoDB, Redis, Elasticsearch, Mongoose, TypeORM, Flyway, Query Optimization, Indexing

Cloud & AWS: Lambda, EC2, S3, API Gateway, Cognito, SNS, SES, DynamoDB, KMS, Secrets Manager, CloudWatch, Serverless Framework

DevOps & Messaging: CI/CD, GitHub Actions, Docker, Docker Compose, Gradle, Apache Kafka, BullMQ, Firebase, Git, Linux / Unix

AI & LLM: LLM API Integration (Anthropic Claude, OpenAI GPT, Google Gemini, OpenRouter), Vercel AI SDK, MCP, Real-Time Streaming, Usage Metering & Billing

Testing & Other: Jest, JUnit, Mockito, Mocha, TDD, Capacitor (iOS / Android), Payment Gateways (bKash, SurjoPay), Agile / Scrum, System Design, Code Review

PROFESSIONAL EXPERIENCE

Full Stack Engineer — Sense & Respond Software LLC

Nov 2022 – Present · 3.5 yrs

- Architected and delivered 8+ production full-stack applications (React.js, NestJS, Express.js, MongoDB / PostgreSQL) serving 50,000+ active users.
- Designed RESTful and GraphQL APIs that cut average response latency by 40% via query optimization, indexing, and Redis caching.
- Built and maintained AWS serverless infrastructure (Lambda, API Gateway, S3, Cognito, SNS, DynamoDB, KMS), reducing cloud costs by 20%.
- Established CI/CD pipelines with automated Jest gates and GitHub Actions, reducing production bugs by 60% and enabling daily deployments.
- Led architecture decisions and mentored 3 junior engineers through code reviews, sprint planning, and pair programming.

Software Engineer — Ghuddy Limited

Jul 2021 – Nov 2022 · 1.4 yrs

- Built backend microservices and REST APIs for a high-traffic travel & hotel-booking platform using Java and Spring Boot (Spring Data JPA, Spring Security) on PostgreSQL with Flyway migrations.
- Implemented Elasticsearch-powered search and filtering for fast hotel, tour, and listing discovery across large datasets.
- Integrated AWS S3, SurjoPay payments, Firebase notifications, Apache Kafka events, and Spring Mail + Thymeleaf transactional emails.
- Reduced average API response time by 50% via JPA query tuning and PostgreSQL indexing; achieved 95% test coverage with JUnit & Mockito; documented APIs with Swagger and containerized with Docker.

FEATURED PROJECT — DRUTOAI (FOUNDER & LEAD ENGINEER, 2026 – PRESENT)

- Built a full-stack pay-per-chat AI platform for Bangladesh with pluggable LLM providers (Claude, OpenAI, OpenRouter); NestJS + MongoDB backend (JWT, Swagger, usage metering, credit billing) and React + Vite + TypeScript + Tailwind front-end with real-time streaming and Bangla support. (drutoai.com)
- Integrated bKash payment gateway for chat-package purchases and shipped native iOS & Android apps via Capacitor.

PROJECTS

Sense & Respond Software LLC

QA Studio — AI-Powered API Testing & QA Automation Platform: NestJS + Fastify microservices (MongoDB, BullMQ, JWT) and a React + Material UI + ReactFlow + Monaco front-end; AI test generation via Claude, OpenAI & Gemini (Vercel AI SDK + MCP), mock servers, and API-collection management on AWS.

ATA — API Governance & Documentation Platform: Node.js / Express + NestJS services (MongoDB, Redis, MCP) with a Spectral-based CLI for OpenAPI linting and governance, plus React micro-frontends for the doc portal, governance, and pricing.

Sniffer — Defect Tracking & QA Collaboration Tool: NestJS microservices (Anthropic AI, AWS SQS / KMS / SES) and React front-ends with CodeMirror editors and drag-and-drop, Redis caching, fully containerized with Docker Compose.

D2C Marketing & Campaign Platform: Serverless AWS Lambda microservices (DynamoDB, KMS, Cognito, SES, SNS, MJML) for campaign building, persona management, communications, and approval workflows.

Associate 360 — HR, Payroll & Finance Suite: Serverless microservices for company, timesheet, salary, payment, and finance management with DynamoDB streams, Memcached, and Pino logging.

Asset Management API: Production AWS Serverless backend (Lambda, DynamoDB, Cognito, KMS, S3, SNS) with Jira & GitHub integrations and multi-database support.

Ghuddy Limited

Travel & Hotel Booking Platform: Java / Spring Boot backend (Spring Data JPA, Spring Security) on PostgreSQL with Flyway, Elasticsearch search, Kafka, Firebase, AWS S3, SurjoPay payments, and Swagger-documented REST APIs.

API Test Automation Framework: Java suite using TestNG and REST Assured with parallel, group-based execution for regression testing of booking APIs.

Personal / Open-Source

api-collection-converter: Published npm package (npmjs.com/package/api-collection-converter) converting API collections across Postman, Swagger, OpenAPI, Insomnia, HAR, cURL, RAML, GraphQL, WSDL & AWS API Gateway.

KEY ACHIEVEMENTS

50% Faster API Responses — Halved average server response time across services via query optimization, caching, and endpoint refactoring.

95% Automated Test Coverage — Built unit & integration suites (Jest, JUnit, Mockito) in CI/CD, eliminating production regressions for 18+ consecutive months.

5 Products in 12 Months — Led a cross-functional team to design, build, and ship five full-stack products on time and to spec.

60% Fewer Production Bugs — Introduced automated testing gates and code-review standards that sharply reduced defects reaching production.

Founder of DrutoAI — Built and launched a live, monetized AI chat platform serving users across Bangladesh; published *api-collection-converter* as open-source on npm.

EDUCATION

B.Sc. in Computer Science & Engineering — **Rajshahi University of Engineering & Technology (RUET)** 2016 – 2021
